

## SharePoint 2010 InfoPath Quick Overview

InfoPath is a toolset designed for power users to create forms that users can then fill in. The InfoPath designer tool is available with the Microsoft Professional Office 2010 edition. Also it should be noted when designing forms – so that a client piece of InfoPath (named the Microsoft InfoPath Filler 2010) does not have to be installed on every computer that is to use the form that is created – a web-site version of the form should be created for better architecture and flexibility.

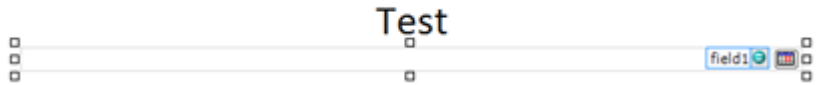

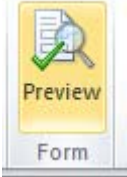

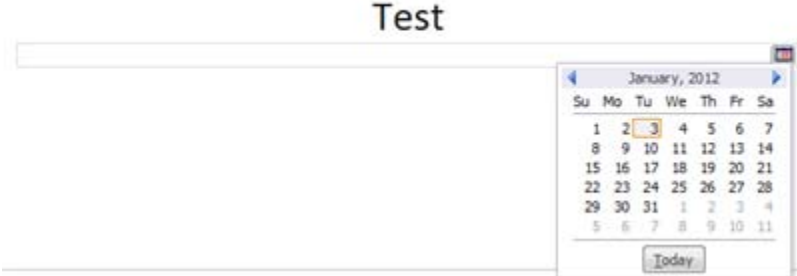

The steps below cover creating a simple InfoPath Form

1. Access the InfoPath Designer 2010 – found from Start -> Microsoft Office -> Microsoft InfoPath Designer 2010	
2. Select No if prompted unless you wish .xml files to open in InfoPath	
3. Under Popular Form Templates double click Blank Forms	

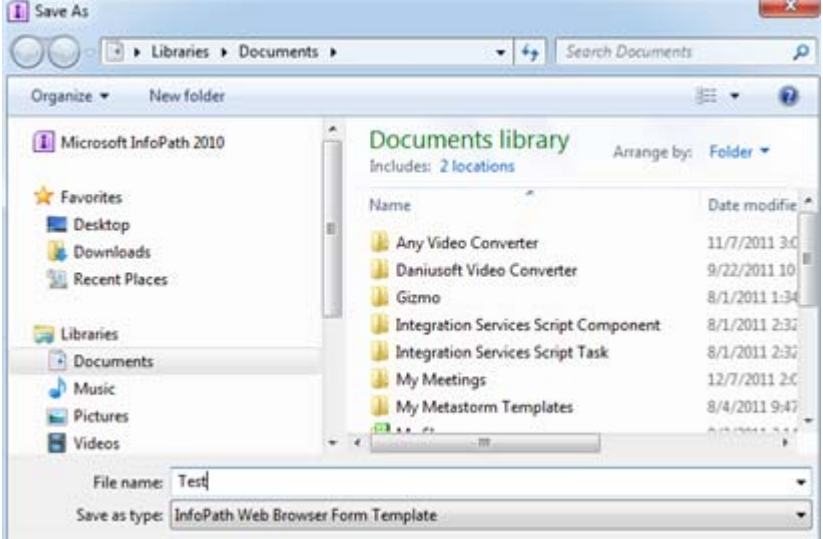

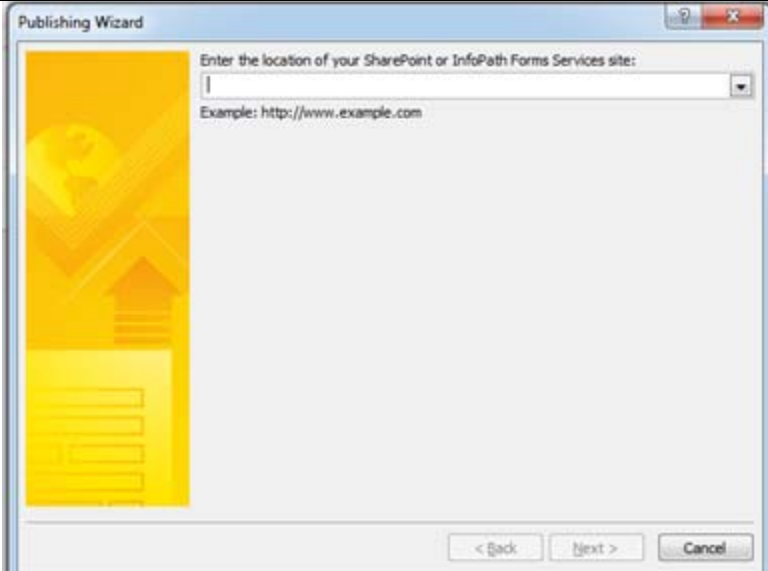

# KEVIN O'NEILL

<p>4. The screens middle section will appear as such:</p>	
<p>5. Click to add title and type in "Test"</p>	
<p>6. On the Page Design tab click a selection – in this case Professional – Ricasso was selected.</p>	
<p>7. Select the Home tab – then place the cursor on the title line (where it says Test) – hit enter once then from the toolbox select the Date Picker</p>

8. The date picker is added to the form	 A screenshot of a form titled "Test". The form contains a single text input field. To the right of the input field, a date picker control is visible, showing a small calendar icon and the text "field1".
9. In the Ribbon select the Preview button which is likely on the far right – under the Form group	 A close-up screenshot of a ribbon button labeled "Preview". The button features a magnifying glass icon over a document with a green checkmark. Below the button, the word "Form" is visible, indicating the current ribbon group.
10. The form is shown and the control that was added can be selected	 A screenshot of the "Test" form. The date picker control is now open, displaying a calendar for January 2012. The date "3" is selected. The calendar shows days of the week (Su, Mo, Tu, We, Th, Fr, Sa) and dates from 1 to 31. A "Today" button is at the bottom of the calendar.
11. On the ribbon select the Close Preview button – under the Preview section	 A close-up screenshot of a ribbon button labeled "Close Preview". The button has a red 'X' icon. Below the button, a tooltip is displayed with the text: "Close Preview" and "Close this preview window and return to the InfoPath Designer." The word "LOST" is partially visible at the bottom of the image.

<p>12. At this point – select File -&gt; Save As and save the form into a directory of your choice</p>	
<p>13. To publish the form to SharePoint – from the File tab – select Publish</p>	
<p>14. Select SharePoint Server</p>	
<p>15. Enter in the name of the SharePoint site and click Next</p>	

# KEVIN O'NEILL

<p>16. A wizard will then run</p>	 A dialog box titled "Site Columns" with a question mark icon and a close button (X). The main area contains the text "Getting site columns..." and a "Cancel" button at the bottom right.
<p>17. When prompted check "Enable this form to be filled out by using a browser" and select Form Library then select Next</p>	 A "Publishing Wizard" dialog box. It has a question mark icon and a close button. The main area contains a checked checkbox "Enable this form to be filled out by using a browser" and the question "What do you want to create or modify?". There are three radio button options: "Form Library" (selected), "Site Content Type (advanced)", and "Administrator-approved form template (advanced)". Each option has a brief description. At the bottom, there are buttons for "< Back", "Next >", and "Cancel".
<p>18. The server will be contacted</p>	 A "Publishing Wizard" dialog box. It has a question mark icon and a close button. The main area contains the question "What do you want to do?". There are two radio button options: "Create a new form library" (selected) and "Update the form template in an existing form library". Below the options is a section titled "Form library to update:" with a table. The table has two columns: "Name" and "Description". The first row contains the text "Connecting to server...". At the bottom, there are buttons for "< Back", "Next >", and "Cancel".

# KEVIN O'NEILL

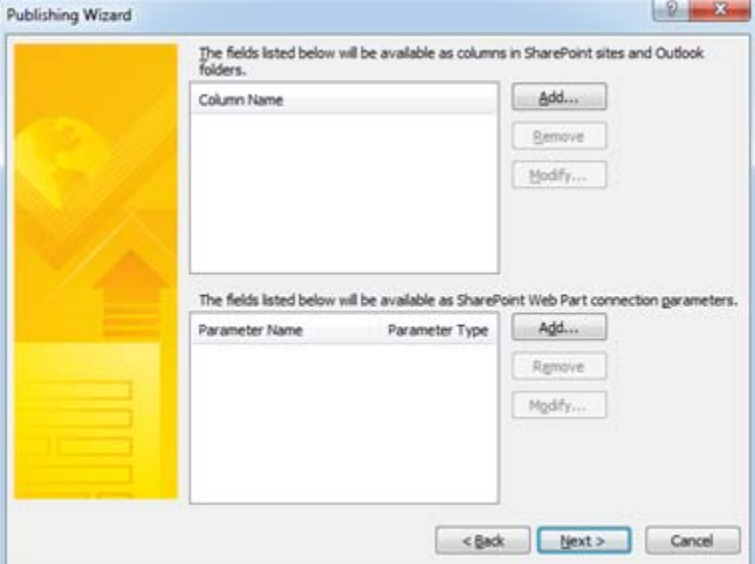

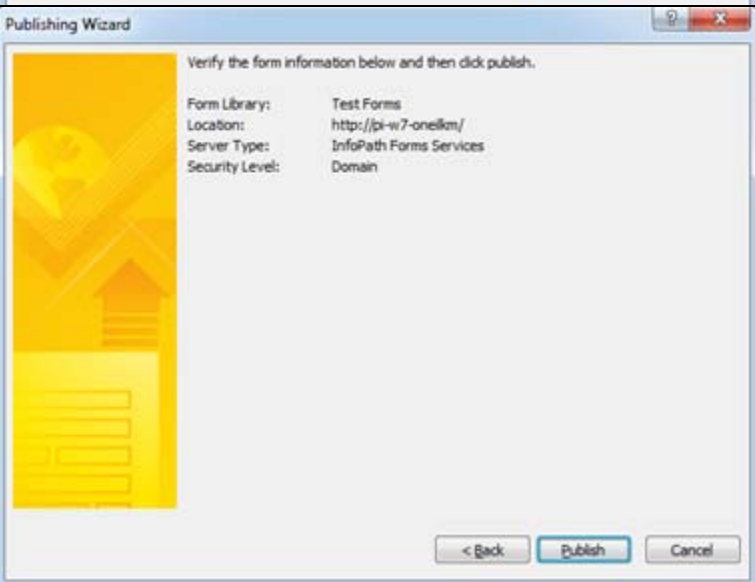

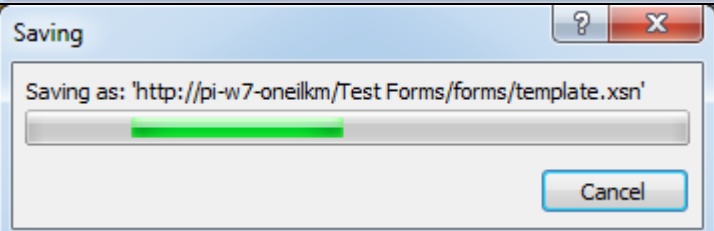

19. In this example “Create a new form library” will be selected – then Next:

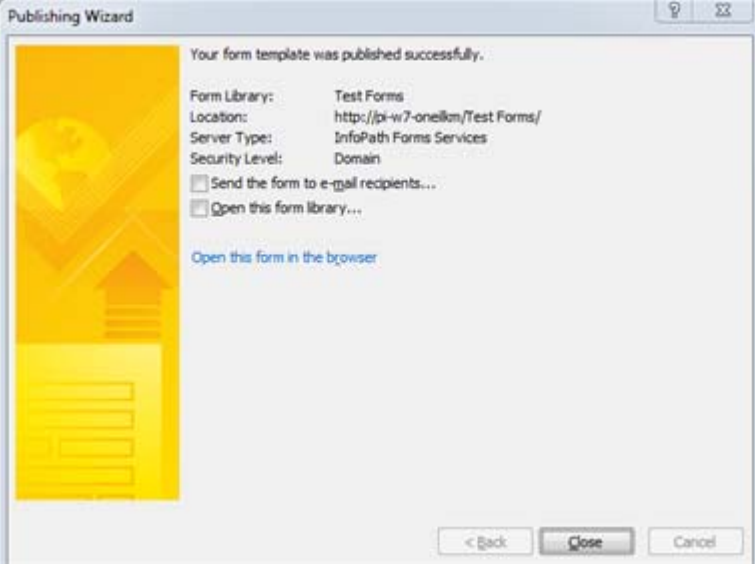

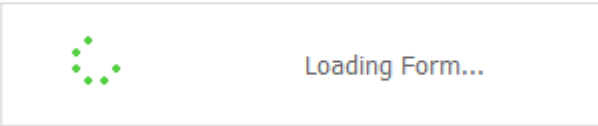

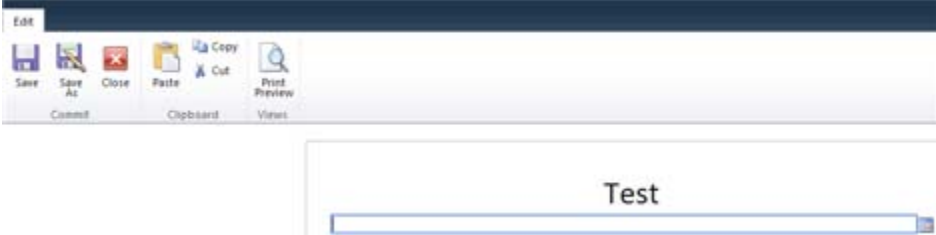

20. A name “Test Forms” was entered and Next selected:

# KEVIN O'NEILL

<p>21. Select Next as in this example we will not be adding columns or parameters to SharePoint sites and Outlook folders:</p>	 <p>The Publishing Wizard dialog box is shown. It has a title bar 'Publishing Wizard' and a close button. The main area contains two sections. The first section is titled 'The fields listed below will be available as columns in SharePoint sites and Outlook folders.' It has a text box for 'Column Name' and buttons for 'Add...', 'Remove', and 'Modify...'. The second section is titled 'The fields listed below will be available as SharePoint Web Part connection parameters.' It has a table with columns 'Parameter Name' and 'Parameter Type', and buttons for 'Add...', 'Remove', and 'Modify...'. At the bottom, there are buttons for '&lt; Back', 'Next &gt;', and 'Cancel'. The 'Next &gt;' button is highlighted.</p>
<p>22. Verify information – then select Publish:</p>	 <p>The Publishing Wizard dialog box is shown. It has a title bar 'Publishing Wizard' and a close button. The main area contains a section titled 'Verify the form information below and then click publish.' Below this, there is a table with the following information: Form Library: Test Forms; Location: http://pi-w7-oneilm/; Server Type: InfoPath Forms Services; Security Level: Domain. At the bottom, there are buttons for '&lt; Back', 'Publish', and 'Cancel'. The 'Publish' button is highlighted.</p>
<p>23. The wizard will run through and create connections as needed</p>	 <p>The Saving dialog box is shown. It has a title bar 'Saving' and a close button. The main area contains the text 'Saving as: 'http://pi-w7-oneilm/Test Forms/forms/template.xsn'' and a progress bar. At the bottom, there is a 'Cancel' button.</p>

# KEVIN O'NEILL

<p>24. When completed make the desired selection and click Close when desired:</p>	 <p>The Publishing Wizard dialog box displays the following information:</p> <ul style="list-style-type: none"><li>Form Library: Test Forms</li><li>Location: <a href="http://pi-w7-oneillm/Test Forms/">http://pi-w7-oneillm/Test Forms/</a></li><li>Server Type: InfoPath Forms Services</li><li>Security Level: Domain</li><li><input type="checkbox"/> Send the form to e-mail recipients...</li><li><input type="checkbox"/> Open this form library...</li></ul> <p>Below the list is a link: <a href="#">Open this form in the browser</a></p> <p>Buttons at the bottom: &lt; Back, Close, Cancel</p>
<p>25. In this example – “Open this form in the browser” was selected</p>	 <p>A dialog box with a green circular loading icon and the text "Loading Form..."</p>
<p>26. The form was then displayed for entering in data:</p>	 <p>A screenshot of a web browser window showing a form titled "Test" with a text input field.</p>
