My dear Mrs Crothers,

I have been so busy on some Colonial Dame work I am a little late in writing to you regarding the Doziers. I went to Westmoreland Co. and found a great deal recorded there regarding the Doziers. Lenard Dozier was granted land there between 1660 and 1700. From there they spread out into Lancaster, Richmond, Northumberland and King George Cos and onward. The name Lomax is originally found in Westmoreland Co. also which practically ~~pro~~ proves your branch to have come from there.

The family was a well known ~~or~~ from before 1700 and intermarried with other F.F.Vs so you might find other lines as interesting as the Doziers. I can do this work for you-Proving your Line for \$50.00 . \$10.00 down bal. when completed
